

Calendar Page

```
graph TD; A([Calendar Page]) --> B[Monthly calendar with active dates that when clicked will open a menu to all to storage of notes, homework, and events]; B --> C[Calendar provides option to color cord. notes, homework, and events across multiple dates];
```

The diagram is a flowchart illustrating the features of a 'Calendar Page'. It begins with a red oval at the top containing the title 'Calendar Page'. A vertical arrow points down from this oval to a yellow rounded rectangle. This rectangle contains the text: 'Monthly calendar with active dates that when clicked will open a menu to all to storage of notes, homework, and events'. From the right side of this yellow rectangle, a horizontal arrow points to a cyan rounded rectangle. This rectangle contains the text: 'Calendar provides option to color cord. notes, homework, and events across multiple dates'.

Monthly calendar
with active dates
that when clicked
will open a menu
to all to storage of
notes,
homework,
and events

Calendar
provides
option to color
cord. notes,
homework,
and events
across
multiple dates
